## IV-Stand Low Gravity

### Area of application

The outer tube offers enough space to attach various devices at a user-friendly operating height

### Technology

- All plastic parts are lightweight
- Stainless steel tubes according to DIN EN 10217-7
- Material ultrasonic and eddy current tested (according to EN 10246-9/3)
- The integrated pull-out limiter prevents the adjustable tubes from separating
- Safety bottle cross according to DIN ISO 15375
- Increased resistance to corrosion thanks to the base made of glass-fibre reinforced plastic

### Economy

Compact packaging allows for low-cost shipping

### Safety

- The base legs are sealed with plastic plugs (no risk of injury)
- Low risk of pinching when retracting and extending the IV-pole thanks to the built-in safety distance
- The Softdrop system dampens and controls the lowering of the inner tube
- No risk of injury thanks to the rounded shape of the bottle hooks
- The geometry of the hooks prevents the infusion bottle from falling out
